

## *Sportgum*

Synthetic liquid single-component thick shock-absorbing layer (such as **Sportgum**), formulated with water-based resins and granular aggregates, to create a base layer and obtain a shock-absorbing effect on multi-purpose courts. Ideal for playing fields of the TENNIS - Evolution System line. Suitable for indoor and outdoor use. This product has been studied for the creation of playing fields of the *TENNIS - EVOLUTION SYSTEM* line in combination with Floorgum Paint. The *Sportgum + Floorgum Paint* system is *ITF2 certified (International Tennis Federation - ITF)*. Minimum required characteristics: Elongation at break 430.22%; Permeability to water vapour  $\mu=655$ ; Tensile Strength 0,43 MPa=N/mm<sup>2</sup> | 62.37 lb/in<sup>2</sup>; Permanent deformation for an elongation of 70% – 2,0 mm | 0.079 in; Permanent deformation percentage 8%.
